

RINGSPANN®

Cage Freewheels E

Cage Freewheels E

Torques
up to 520 Nm

Cage made of plastic (PA)

Sprags made of
hardened chrome steel

Your benefit

- >> Highest torque capacity; more than three times higher torque capacity than drawn cup roller clutches
- >> Increased, customer-supplied component tolerances possible due to optimized sprag geometry
- >> Particularly suitable for space-optimized applications such as e-bike drives
- >> Customer-specific solutions can be implemented at short notice
